Community Laptop Drive for Education

The Greater Phoenix Chamber Foundation has partnered with Data Doctors, Cox Communications, and Arizona Students Recycling Used Technology (AZ StRUT) to provide critical laptop access to our K-12 students. We are asking community members and businesses to donate laptops that are no longer needed to be refurbished and provided to students who do not have devices at home. This laptop drive, alongside Cox's commitment to equip homes with wireless internet, will empower students to participate in virtual learning.

Donating is simple and risk-free!
